“As a responsible global member of the comity of nations, India is committed to combating climate change, curbing emissions and ensuring a sustainable future.”

Shri Narendra Modi  
Hon'ble Prime Minister of India

## #REINVEST2019 • INNOVATIONS FOR SUSTAINABLE ENERGY TRANSITION

### A GLOBAL PLATFORM TO CATALISE DEVELOPMENT AND DEPLOYMENT OF RENEWABLES

The Ministry of New and Renewable Energy (MNRE), Government of India, is organising the 3rd Global RE-INVEST India-ISA Partnership Renewable Energy Investors Meet & Expo from 30 October to 2 November 2019 at the India Expo Centre, Greater Noida, National Capital Region of Delhi. RE-INVEST 2019 will feature a 3-day Conference and Expo, and will coincide with the Second Assembly of International Solar Alliance. The theme for #REINVEST2019 is Innovations for Sustainable Energy Transition. Hon'ble Prime Minister of India Shri Narendra Modi is likely to grace the Inaugural Ceremony.

### RE-INVEST 2018: GLIMPSES

SPEAKERS

**45**  
SESSIONS

**115**  
COUNTRIES

**3000**  
B2B MEETINGS

**160**  
EXHIBITORS

RE-INVEST 2019 will build upon the successes of RE-INVEST 2018 and 2015, providing a platform to the established global RE community as well as new segments of investors and entrepreneurs to engage, ideate and innovate.

## INDIA'S ACHIEVEMENTS

India, today is one of the world's most attractive RE markets, with exponentially increasing demand and proactive policy support, allowing 100% foreign investment through automatic route. Over USD 100 billion investment has already been made, and another USD 30 billion is underway. India's aim to add 450-500GW RE capacity by 2030, to be bid out by 2028, will need additional USD 80 billion by 2022, up to USD 400 billion by 2030.

RE-INVEST 2019 is an established international platform to discuss, explore and accelerate new strategies and efforts to develop and deploy renewables. It will connect the global investor community with stakeholders through a series of seminars, with exhibitions by diverse sectoral players showcasing products, services, manufacturing capabilities, latest technologies and financing opportunities.

	2024	2030
	130GW	350-375GW
	75GW	75-100GW
	13GW	15GW
	7GW	10GW
	<b>225GW</b>	<b>450-500GW</b>
